

SIDE SHIELDS

CONFORMS TO
ANSI Z87.1
STANDARDS

- Flex Side Shields turn regular glasses into safety glasses
- They're soft and molded to bend with your glasses, but are still durable enough to absorb the energy from an impact
- Provides side protection that you don't normally get from your spectacles
- Made from flexible material
- Weaves through the arm of your glasses
- Folds with temple
- Blocks 100% of harmful UV rays

P/N 59018

To apply, weave the arms of your glasses through the cuts in the side shield. They fit on a variety of spectacle sizes and styles. Flex Side Shields also allow your glasses to fold up correctly for proper storage.
